

Actuator for 2 and 3 way valves type MEU / VEU / FEU / VZX / MZX

The actuators type AVUE5304/C can be used with 2 and 3 way valves type MEU / VEU / FEU / VZX / MZX from diameter ½ inches up to 2 inches

The actuator will adapt himself to any stroke during installation and initialisation procedure

Control signal 0-10VDC modulating

The actuator has a manual override screw

Technical specifications

Power supply	24 VAC +-10% 50/60hz
Control signal	0-10 VDC
Power supply & signal wiring	5 wires cables 1.5 m
Stroke	6.5 mm
Stroke time	35 sec max
Temperature	-10/50°C
Humidity	max 90% RV
Protection level	IP 54
Weight	1.8 kg
Standard	EN 500.81-1-1992 EN 500.82-1-1992
